

Scholarship Program

An educated workforce and opportunities for lifelong learning are critical to the region's future.

Established to support residents of the region pursuing educational and career goals consistent with the organization's objectives. Applicants should demonstrate motivation, academic and leadership potential, and must be in good academic standing. Applicants should also be committed to the development of business and commerce in Southeast Alaska. Recipients are selected based on such factors as academic achievement, financial need, and the type of degree or certificate program in which the applicant is enrolled. Most favorable consideration is given to those enrolled in programs that support, or are consistent with, the goals of Southeast Conference. Consideration is additionally given to applicants' understanding of the region's economic base and to their potential for contributing to the betterment of Southeast Alaska.
